

Invention Convention Planner

1.) Keeping in mind that innovations are usually created when a problem exists, have you had a problem this week or in your everyday life? Describe the problem...

2.) What did you need to solve this problem that you did not have?

3.) Draw or describe an innovative idea in the box below that solves your problem...

Your Idea: Use Google Draw to sketch an idea or write an idea in the box. Go to Insert>Drawing if you want to draw.

Good aspects of the idea:

Weak aspects of the idea:

Interesting aspects of the idea:

You need to think of a memorable name for your product. It may be the name of the business too. Jot down some words that sum up or describe your idea and come up with a name.

Product name:

You will need a trade mark or logo for your advertising, website, office stationery, van and shop front.

Use Tux Paint or Google Draw to draw and insert a logo into this document. Save your logo to your desktop as well.

Final Project

Use Comic Life to create an advertisement for your innovation!

Post your Comic Life project to your blog...

Your ADVERTISEMENT must include:

- A picture of your product
(you can take a screen shot of something from TuxPaint or Google Draw)
- The logo of your product
- A brief summary of how it works or what it does
- A review of your product from another person: "I can't believe how the ___ changed my life!"
